

CLASSIC ADELAIDE TO SHOW ON SEVEN NETWORK

THIS year's 13th Classic Adelaide tarmac rally will be covered in a one-hour television feature broadcast nationally on the Seven Network early in the New Year.

The program will be aired on Saturday 2 January at 12.30 pm in Sydney and Brisbane and 1 pm in Melbourne, Adelaide and Perth. Viewers should check local TV guides for the latest broadcast dates and times in all areas.

The coverage will be produced by Adelaide company Winter Wonderland Productions, which assigned a team of 11 to the five-day rally and associated events.

Winter Wonderland director Mark-John Winter also produced daily highlights packages, which were used during the event by television news services, plus versions for internet publication. A further version, including vision of the podium finish captured just hours before, was screened for several hundred guests at a post-event awards dinner in the Adelaide Convention Centre.

The Classic Adelaide 2009 television coverage will be enhanced by spectacular aerial footage taken on the final day of competition with the assistance of low-level filming specialist Peter McSherry, chief pilot of South Coast Helicopters.

A DVD version with extra features including footage not shown on television will be available from rally organiser Silverstone Events at the end of January.
